*the smart way
of tool presetting!*

...for the best
measuring results

ONE SOURCE SOLUTION
THE SERVICE LEVEL YOU NEED

- Brig / Zurich
Headquarter and production facility
- Service & technical office
- Service & technical office
- Service & technical office

TOOL MASTER
WOOD

In addition to our strong product development, planning and production, we offer our customers an experienced and professional worldwide service.

Our high qualified technical team will accompany you from planning to commissioning.

Thanks to our online-maintenance, we guarantee expert problem diagnosis, fast spare parts delivery of all repairs and maintenance issues.

HOMAG Group AG

THE PERFECT MATCH

WHY PWB FOR HOMAG?

Evoset is an international acting company in the field of tool presetting and shrinking. We combine professional productivity with ultimate user-friendliness and tailor made solutions.

The products focus are on optimised implementation of individual customer needs. Part of a strong engineering group, Evoset AG offers intelligent, complementary solutions with a great price-performance ratio. This allows companies with machinery to improve the utilisation of their capital-intensive CNC machines and to increase their productivity on average by 25% per unit. As a production industry partner, Evoset AG continually develops new devices and systems in order to further optimise industrial processes.

In-house developments of measuring units, software, assembly and an engineering staff ensure required know how and success for your investments.

PWB-branded products can be found in production facilities all over the world.

- Optimised setup times
- Reduced machine downtime
- Increased tool life
- Tool inspection
- Aggregate management
- Top price – performance ratio
- Online support – directly on the device

PWB NEEDLE BEARINGS FOR HIGHEST REPEATABILITY

- Protection against damage of the ground cone by surface errors of the tool
- Lower surface pressure than ball bearings, thus less wear
- Higher centring forces than when using surface contact
- Oil and dirt remain in the cavities and have no influence on the measuring accuracy
- Integrated edge protection when changing tools
- Easy to clean
- No maintenance costs

EASY PACK

The base is designed such that the device is packaged and shipped in it saving space, reducing cost and environmentally friendly.

TOOL MASTER Wood incl. base structure L,W,H 118 x 70 x 151 cm ~ 200 kg in wooden crate

THE PERFECT OPTIONS

DATENTRANSFER / DATA CONNECTION

If the TOOL MASTER is connected directly with the machining centre, the tool data can be transferred online to the machine control. This will gain you more machine capacity and safety by excluding incorrect manipulations. The user can concentrate fully on the smooth operation of the CNC machines and is not distracted by complex data input.

EyeRay® is prepared for the management of post-processors and can communicate with data carriers on the tool holders. Use of this option is very easy and ensures error-free and convenient transfer of measurement and tool data.

PROFESSIONAL EQUIPMENT

TECHNICAL DATA

Type	Pneumatic clamping, practical design and ease of use
Measuring range: Standard (ø mm / L mm) Max. (ø mm / L mm)	400 / 40 400 400 / 40 600
Axis fixation:	Pneumatics
Fine adjustment:	Handwheel per axis
Tool mounting:	Needle bearings or KV spindle with rotation lock and vacuum pull in
Measuring procedure:	Image processing with EyeRay® BUZZARD WOOD

ACCESSORIES

HSK (Shapes A to F)

- Reduction SK/ISO to HSK, available with and without clamping
- Offset value is engraved on the reduction according to the following table
- Adapter HSK-63 Wood for aggregates as well for tools with the shape HSK-B/D/F 63

Offset value (Z)	
Internal shape	External shape SK50 / ISO50
HSK - BDF 40	15 mm
HSK - BDF 50	15 mm
HSK - BDF 63	15 mm
HSK - BDF 80	15 mm
HSK - BDF 100	52 mm

Offset value (Z)	
Internal shape	External shape SK50 / ISO50
HSK - BDF 63	52 mm

- HOMAG Tool Boy – The versatile and secure mounting device for aggregates and tools.

YOUR BENEFITS

- Image processing with EyeRay® software Buzzard Wood with aggregate management
- All-in-one PC with 15.6" touchscreen monitor for easy and quick operation
- Infinite fine adjustment in X- and Z-axis
- Quick focusing of the tool cutting edge
- CMOS digital camera with tele centric lens
- Label printer
- High concentricity due to needle bearing
- High measuring repeatability
- Smooth recirculating ball bearing guides
- Sturdy cast iron base
- Base
