# FLIGHTCASE

## raaco FlightCase

raaco FlightCase is a series of 3 water and dust proof cases that meet the requirements from ISO IP67.

The cases are made of high grade plastics (PP) which is resistant to chemicals and suitable for use in the majority of environments and in cold weather (-20 C). The piston valve levels out pressure when the cases are transported in air cargo.

The practical and robust design ensures a lightweight case that is easy to clean, protects the surface against scratches and is stable when standing upwards. You can both sit and stand on your raaco FlightCase. The locks are easy to open and close - even with one hand. The holes attached to top and bottom makes it possible to lock and seal the case.

The inner space can be adjusted to required products with layers of soft foam.

Item no.	Description	External dimension HxWxD, mm	Internal dimension HxWxD, mm	Volume external, l	Volume internal, l	Weight kg	Colour
738002	raaco FlightCase 3	336 x 300 x 148	300 x 225 x 132	14,92	8,91	1,85	Black
