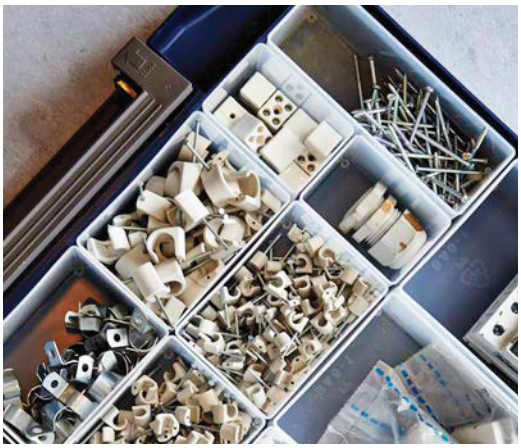
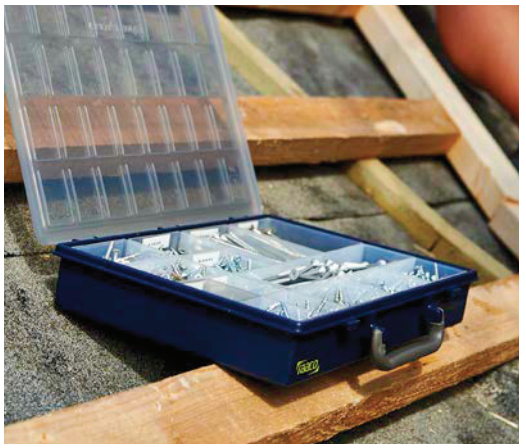
- Compact 24
- Drawer 250-3 25
- ToolCase - tray 55 XL 26





Arrange the raaco products to suit your needs

Inserts - system, compatibility and choice

The flexibility and choices don´t just exist within the individual systems, but also between them. The inserts ensure many combinations between the Assorter Boxes in A4, A5 and A6 size, Pocketboxes, CarryLites, Boxxser, Compact, ToolCase and the 250-3 drawers for cabinets.

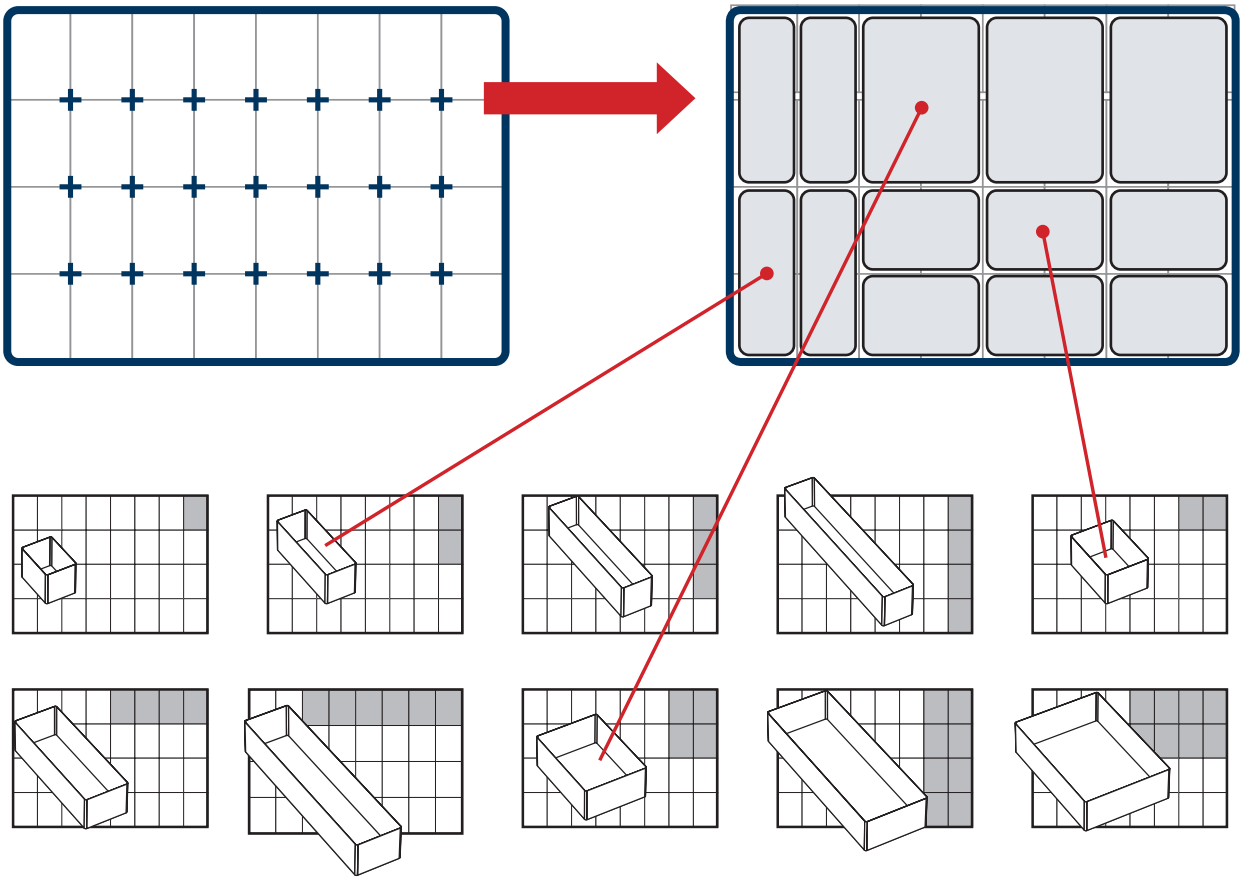
The wide range of inserts ensures that you can customise your raaco product to suit particular requirements - and just as easily move it again. The inserts and the contents stay in place thanks to a special installation system. Furthermore - it also makes even the smallest items easy to get hold of.

On the following pages there are guides which illustrate, how assortment boxes, drawers, toolboxes and toolcases can be arranged. The type and size of the inserts depends on the product to be arranged.

In the illustrations of the individual insert, a field is marked in grey which indicates how much the insert takes up and how it should be placed.

A template showing the bottom of a CarryLite 55 4x8

An example of a combination with 3 types of inserts



The illustrations show how many fields each insert cover the bottom of the box.
